NEW STEAMER WHARF

Brunswick Transportation Company Purchased Cumming Mill Property.

DEED FILED YESTERDAY

New Line Probably in Operation Next Week—Boat Now on Her Way Here From New York Remodel Building

The valuable wharf property at the southwest corner of Water and Dock streets was yesterday acquired by a party of Southport people for the Brunswick Transportation Company, which was recently organized for the purpose of operating a mail and passenger steamer on the Cape Fear river between Wilmington and Southport. The consideration is not named in the tain Preston Cumming, the owner, who now has a saw mill on the premises. The consideration is not named in the deed which was filed for record yesterday, but it is understood that the consideration was a goodly sum. The purchase not only includes the building and real estate but also the machinery of the mill, but the new owners have not yet decided what they will do with the outfit.

The purchasers of the property are named in the deed as follows: Messrs. Prise Furpless, L. J. Pepper, D. I. Watson, J. J. Loughlin, J. R. McRacken, A. J. Robbins, W. A. Moore, E. H. Cranmer, Richard Dosher and J B. Ruark, of Southport, all of whom are among the incorporators of the new steamboat company. The property has a wharf frontage of 66 feet and runs along the southern line of Dock street 66 feet. It is understood that the present building on the premises will be remodeled and the wharfage considerably enlarged to meet the requirements of the new company. The purchase price named in the deed is "$10 and other considerations."

The steamer for the new line left New York last Monday morning and should reach here the last of the present week. It is understood that she was put in readiness in New York for going into commission at once. Who the Wilmington and Southport agents of the line will be has not yet been officially announced.

FIRE ALARMS YESTERDAY.

Laddies of the Department Kept on the Jump Yesterday.

The advent of cold weather means much hard work for the laddies of the Fire Department. Several alarms were responded to yesterday and last night. At 12:40 yesterday an alarm came in from box 45. A defective flue at No. 520 South Second street, caused a small blaze which damaged the building about $100 and contents about $25. The house was occupied by N. M. Parker.

At 4:40 o'clock yesterday afternoon an alarm came in from box 35, Ninth and Chestnut streets, but there was no fire. A small boy in the street heard a woman scream in a house in the vicinity and thinking there was fire he turned in the alarm. A child was having convulsions and the mother in her anxiety for the little one screamed for help. The department was, of course, no good in such an emergency.

A telephone alarm at 5:55 P. M. brought the apparatus to 521 South Eighth street, owned and occupied by Mariah Davis, colored. The cause was an overturned lamp and no damage of consequence resulted.

Anniversary of Their Marriage.

Although the hosts, prior to the beginning of the arrival of their guests, were totally oblivious of the fact that the event of their twelfth marriage anniversary was known to any but themseles that happy occasion in the lives of Mr. and Mrs. John J. Fowler, was remembered by quite a number of their friends on Wednesday night, and they called informally in quite a large number to extend their felicitations at the hospitable home of the couple. No. 401 South Front street. It was quite a pleasant affair and those who enjoyed Mr. and Mrs. Fowelr's hospitality during the evening were quite elegantly entertained.

STREET CAR SERVICE

Proposed Extension to Carolina Place, Seems a Certainty—Property Owners Subscribing to Fund For the Purpose—Other Talk.

It was learned yesterday that conditions had about been met by which the Consolidated Company will extend its treet car service to Carolina Place, the new suburban settlement in the eastern section of the city. The company has agreed to put the line in operation provided lot owners will contribute toward the cost of the extension of the system to that place and from an authoritive source it is learned that nearly 300 of the lot owners in the suburb have agreed to pay $10 each toward the improvement The American Suburban Corporation, which has a number of lots yet unsold in the suburb, it is understood, will supplement the amount already subscribed by the purchasers of the lots and it is also said that other property owners in the vicinity of Seventeenth and Market streets will do likewise. The Consolidated engineers are at work on estimates for the proposed extention and the Co., will give the property owners an answer in 30 days. It is said without a doubt the extension will be built.

The plan seems to be to include Carolina Place on the suburban list of stations, extending the present line out Princess street to Twentieth street and turning there by Carolina Place and on out through Delgado, connecting with suburban line there. Another plan is to make the extension up Market street to Carolina Place, operating a separate car or cars on the branch line. These matters are now under consideration and some arrangments will be made by which the connection will be effected. Carolina Place owners feel confident that $10,000 can be raised to secure the extension.

Aside from this effort toward an extension of the present line there are rumors in the air of other independent lines. One [illegible] is to include Carolina Place in the independent line, which, it is said will also build a line to the factories in the southern part of the city, and from there on out to Greenfield Mill Pond, where property has been purchased with a view of converting it into a park. One rumor yesterday had it that a prominent lawyer of the city was drawing a bill to be presented to the Legislature at its January session conferring all necessary authority for the building and operation of a line.

K. OF P. DISTRICT MEETING.

Special Train to Clarkton Carried Good Delegation From Here.

A large delegation of Wilmington Pythians and not a few from towns in this vicinity returned to the city early this morning on a special train from Clarkton where they attended the district meeting of the order last night. The train left the city at 6 o'clock yesterday evening over the Seaboard Air Line and the coaches were well filled. Grand Chancellor W. W. Wilson, of Raleigh, arrived yesterday morning from his home and accompanied the Wilmington party, being a guest of honor at the meeting and delivering a fine address on Pythianism.

The returning Pythians speak in the highest terms of the entertainment afforded them by the Clarkton people and pronounce the district meeting a big success. A number of interesting and instructive addresses were delivered according to the programme which was published in these columns yesterday.

The special reached the city at 2 o'clock on the return and through the kindness of the Consolidated Company two street cars were in waiting for the party upon their return. The only change in the programme from that printed was that State Deputy Grand Chancellor J. D. Nutt made the address on "The Ideal Pythian," in place of Col. Walker Taylor, who who found it impossible at the last moment to attend the meeting. The meeting was presided over by District Deputy John F. Littleton, of Wilmington, and besides the large number of Pythians in attendance, there were a great many ladies.

Princeton Glee Club Coming.

As announced in the society column of the Star last Sunday the Princeton Glee Club, of Princeton College, will be here for an engagement during the Christmas holidays. The date has been decided upon as the night of Christmas, December 25th, and already the event is being looked forward to with great pleasure by Wilmington people.

Saturday morning from 10 to 11 o'clock the Polvogt Company will sell 2,000 yards of fancy taffeta silk and printed Japanese silk worth 50 and 75 cents for 33 cents a yard.

PURSUED AND KILLED

Will Harris North Carolina Negro Desperado Shot to Death Near Asheville.

TO BAY IN A WOOD BARN

His Body Riddled With Bullets, Firing As He Ran Before the Officers and Posse of Citizens—Bloodhounds Used on Trail.

(By Associated Press.)

Asheville, N. C., Nov. 15.—Will Harris, the negro who killed two Asheville policemen and three negroes Tuesday night, was himself killed by a posse to-day near Fletcher, about 10 miles south of Asheville. At 8 o'clock this morning word was received that the negro had been seen near Fletcher and aid was requested. Three parties of officers and citizens set out for the place and the fugitive was located in a wood barn. Fire was opened on the negro who attemptel to escape, firing as he ran, until he was surrounded and killed.

About 2:30 this afternoon the posse arrived in Asheville with the body of the dead man. Like wild fire the news of the man's death was spread and in less than half an hour South Main street was blocked with a crowding, shouting mass of men and women, to see the man who in less than 20 minutes had taken the lives of five men, three of his own race.

For some time it was feared that the mob would take the body of the negro from the officers and follow out its threat of burning it, but the sheriff and his men guarded the doorway of the undertaking establishment with loaded rifles and the crowd later dispersed. To-night all is quiet in the city.

Harris was trailed to Fletcher by blood hounds, but shortly before he was located finally the dogs had lost the scent through interfenence by farmer's dogs.

Asheville, N. C., Nov. 15.—The body was fearfully mutilated, having been pierced by dozens of bullets. It is not known to a certainty that the dead negro is the notorious Mecklenburg county negro, Will Harris, but it is certain that he is the one who did the killing here Tuesday night.

A dispatch from Charlotte leads the authorities to believe that Harris was an assumed name and that the dead man was James Harvey, of Forest City, Va. The sheriff is on the way from Charlotte to identify the dead man, should he prove to be Harvey.

When found in the woods near Fletcher, by the posse, the negro first started to run, but later turned, backed himself against a tree, leveled his rifle at the crowd and fired three shots before he was killed.

It is stated that one of the balls from his rifle grazed the head of one of the posse.

The rifle was the same with which the negro did his bloody work here.

There were over 50 men in the party who found the negro and dozens of shots were fired effectively at the negro.

Parties of people from here have been going out to the scene of the capture all through the morning. And at the scene the people from that section far and near have gathered in great numbers.

Charlotte Train Wrecked.

A special to yesterday's Charlotte Observer from Monroe, N. C., says: "Passenger train No. 39 from Wilmington to Charlotte, running nearly three hours late, smashed into the caboose of a freight train which had been left standing on the main track near the Monroe station, at 12:45 o'clock this morning. Three passengers, Mrs. R. D. Lewis, of Wilmington; Mr. J. O. Vaughan, of Atlanta, Ga., and Mr. W. H. Green, of Harris, N. C., were injured, but not seriously. A railroad employe, whose name could not be ascertained, who was sleeping in the caboose, was slightly injured.

Monument to Revolutionary Heroes.

The monument which the Society of Colonial Dames will erect to the memory of Revolutionary heroes at Third and Market streets, in this city, has arrived and is being put in place by the designer and builder, Delahunty, of Philadelphia. It will be unveiled with appropriate ceremonies as soon as it is in readiness. The corner stone was laid with impressive ceremonies by the Masonic Grand Lodge last Spring.

Social Session This Evening.

The Methodist Young Peoples' League will have a social meeting at Grace Church this evening beginning at 8 o'clock. A special programme has been arranged and all Methodists of the city are cordially invited.

CONDEMN PRESIDENT

North Carolina Colored Baptists in Session at Salisbury Denounce Mr. Roosevelt For Discharging Negro Troops.

(By Associated Press.)

Salisbury, N. C., Nov. 15.—At a meeting of the negro Baptist Association of North Carolina, to-day, resolutions denouncing President Roosevelt's discharging three companies of the Twenty-fifth Infantry, were adopted. The body represents a constituency of 160,000.

The resolutions "strenuously protested against the unprecedented and arbitrary action of President Roosevelt in punishing the innocent and guilty alike. No one for a moment believes that these companies would have been dishonorably discharged if if they had been composed of white soldiers. If extreme measures had been necesary, this present time of tension between the races and of fear, forebodings, uncertainty, unrest and heart-aches on the part of the colored people, was the most unpropitious that could possibly have been found. The chief executive of a great nation has estranged ten millions of his hitherto ardent admirers and supporters and it is the voice of the conveniton that a committee be appointed to confer with similar committees throughout the United States to take the steps necessary to have the action of the President reviewed by the highest tribunal of the land."

PARAGRAPHS OF THE PORT.

Two Vessels Out With Carga—Tug and Barge Arrive.

The schooners Harriet C. Kerlin and William H. Davidson cleared yesterday, the first named with cargo of lumber from the Cape Fear Lumber mill and the latter, light, for Beaufort, N. C.

The tug Astral, towing Standard Oil Barge No. 57 from Philadelphia, arrived in port yesterday with supply of products for the Southern branch of the company in this city. The tug and barge will clear today for points further south.

The steamer Atlantic, of the Cape Fear Fisheries Co., which was recently sunk in collision with the Clyde Liner Navahoe and which was subsequently raised and brought up to Wilmington by the tug Rescue, of Norfolk, was taken to Skinner's shipyard yesterday and will be pulled up on the ways today. She will probably be permanently repaired here.

It is said that there is no doubt but that the recent sale of the barque Launberga and cargo to Mr. Louis H. Skinner, of this city, will be confirmed by Judge Purnell and that the vessel will be brought up to Wilmington and the lumber in her hold discharged here. The vessel is still at Southport.

Two Attachments Served.

Two attachments issued from Justice Furlong's court yesterday. In one Messrs. Brown Brothers, merchandise brokers of the city, attached funds of the Bartow Milling Co., of Emerson, Ga., to enforce collection of commissions in the sum of $32 alleged to be due them for sales, and in the other Mr. J. W. Winders, of Castle Haynes, attached the personal property of an immigrant, who was leaving the Castle Haynes settlement of the Carolina Trucking Development Co., and was alleged to be due Mr. Winders $77. The funds attached by Messrs. Brown Brothers are in the hands of the Atlantic National Bank and the property attached by Mr. Winders was in the hands of the A. C. L. ready for transportation to another State. The cases will be declared after the legal notice of thirty days.

The Southern National Bank.

Attention is called to the remarkably fine showing made by the Southern National Bank in the comparative statement published elsewhere in to-day's paper. It will be seen that from September 4th to November 12th, according to a condensed statement from the last two officials reports to the United States government, that the deposits of the bank have increased from $574,793.74 to $881,519.73 while there is a corresponding increase in other channels of the bank's transactions. The Southern advertises that it has $200,000 to loan at six per cent. to new customers.

—Mr. J. E. Stubbs, of Moscow, Bladen county, claims to hold the record on prompt delivery of mail by star route in the country. Mr. Stubbs has carried the pouch on Star Route No. 18,363 for the past three years and has not once come in behind time during all that time. Some of the railroads entrusted with the delivery of Uncle Sam's mail might get a pointer from Mr. Stubbs as to just how it is done.

FROM STATE CAPITAL

Seventh Annual Meeting of Literary and Historical Society Held Yesterday

THE STATE REFORMATORY

Auditor Dixon Opposed to Idea and Cites His Reasons—New Bank Chartered at Chapel Hill—Other Notes.

(Special Star Correspondence.)

Raleigh, N. C., Nov. 15.—Prof. Edwin Mims, of Trinity College, was tonight awarded the Patterson Loving Cup by the North Carolina Library and Historical Society for the best literary production of the year by a North Carolinian, the same being his life of Sidney Lanier. The seventh annual meeting of the Society was held here tonight and was well attended. The Bibliograph for 1906 read by Prof. D. H. Hill, showed 52 books by North Carolina authors during the year, whereas six years ago the first Bibliograph showed only 18. The election of officers by the Society resulted as follows:

President—W. D. Pruden, of Edenton.

Vice Presidents—A. M. Scales, of Greensboro; John Charles McNeill, of Charlotte, and Mrs. Lindsay Patterson, of Winston-Salem.

Secretary and Treasurer—Clarence E. Poe, of Raleigh.

A resolution was passed strongly urging the next Legislature to provide a fireproof hall of history and State library building.

Col. J. Bryan Grimes today filed his brief with the Corporation Commission protesting against the telephone rates as they now obtain in this State. The whole matter of telephone rates has been taken up by the Commission and it is probable that in a few weeks a uniform rate for the State will be prescribed.

Raleigh, N. C., Nov., 5.—In speaking of the movement that has started afresh in this State for the establishment of a State reformatory for youthful criminals, State Auditor B. F. Dixon said today that he is decidedly opposed to the reformatory idea but that he believes the General Assembly should pass an act authorizing the judges to turn over to the North Carolina Children's Home Society at Greensboro, all such children as would otherwise be eligible to the reformatory so that this organization could find homes for them where they could be looked after just as homeless children are now provided for by the society which has almost two hundred children in good homes who would otherwise be homeless. Major Dixon says that besides many other objections to a reformatory, he feels the results in this State are such that would require a reformatory for negro children and this would be overrun in a little while by great numbers of negro children, many caused to commit some offense by their parents so that the care of them may be shifted to the State. Major Dixon thinks too that juvenile courts are not at all needed in this State at this stage of the population conditions, there being scarcely a town in the State that could show conditions requiring such an institution.

A charter was issued today for the Carolina Banking and Trust Co., of Chapel Hill, $50,000 capital authorized and $5,000 subscribed by W. J. Corbett, N. J. Boddie and W. W. Mason.

This morning from 11 to 12 o'clock Mrs. A. B. Andrews received the members of the North Carolina Society of Colonial Dames in honor of Mrs. W. R. Cox, president of the National Society of Colonial Dames, who is spending a few days with friends here.

Deputy United States Marshal J. T. Sharp left today for Atlanta with four prisoners who will serve terms in the United States prison there. They are J. S. Everett who will serve one year for postal fraud, Emanuel Merrick and Ruben Chatman to serve respectively five years and eighteen months for pension fraud (all sentenced at Newbern) and Windsor Jackson, sentenced at Washington court to eighteen months for pension fraud.

Stole a Horse and Wagon.

A horse and wagon belonging to Messrs. Prease & Pivers, the tinners on Second street, was stolen from in front of their place Wednesday afternoon. The police were notified to look out for the thief, who must have become frightened at the last moment, as the horse and wagon were found yesterday afternoon in an alley across from the shop of Messrs. Prease & Piver. The owners are at a loss to account for the strange disappearance of the rig and its return under such circumstances.

CAN'T STAND FOR HIGH PRICE SILVER.

The Hon. Leslie M. Shaw, Secretary of the Treasury, earned the nickname of "High Price Shaw" by speaches which he made in the Presidential campaign in 1904. In these speaches he expressed great gratification at high prices and declared that he hoped never again to see low prices. In all probability he is of the same opinion still, except when it comes to silver (bar silver) which has lately been bringing higher prices than for many years. The increase in the price of silver is due to the increased demand for the white metal and to the increased pay which had to be paid the miners so they could make ends meet when the cost of living was largely increased by the advances in the prices of what they eat and wear.

A few months ago the Treasury Department decided to purchase silver for susidiary coins and that increased demand also helped the price of silver. There is increased demand for silver in Europe and when the United States government began to need some of it in its money business very naturally prices advanced in keeping with the demand.

The Treasury Department began its present purchase August 6, and since that time approximately five and a half million ounces have been purchased at prices ranging from 65 1-5 cents to 71.92 per ounce. On last Monday the Department received offers for the sale of silver to the Government at 72 cents per fine ounce. These offers were rejected and Secretary Shaw stated subsequently that no more silver would be bought at present high prices. The Government has on hand, he said, silver enough to keep the mints in operation for some time to come, and he regards the present prices as too high to warrant the Government in making any more purchases at those figures.

So we see that High Price Shaw has kicked against the high price of silver under "Republican prosperity." He doesn't seem to be willing that silver should get its share of that benevolent prosperity. Then again he may think that if silver keeps on going up it might make our silver dollars worth a dollar instead of having gold dollars to stand for them.

We are not harking back to the silver question at all, for the fluctuations in the price of the white metal as compared to gold is what knocks it out as a money standard. Under fluctuating prices for silver the ratio between the metal in our gold dollars and our silver dollars could not be maintained and hence the adoption of the single gold standard. However, we do call attention to the action of Secretary Shaw to show how inconsistent some people can be. As a matter of fact, the Government can afford to pay higher prices for silver, for the reason that every time the price of silver advances the silver coins of the Government increase more in value. The government gets the benefit of the increase in the price of silver as well as the silver miners, for the more valuable the metal in every silver dollar in circulation, the less would be the liability of the Government if it were called upon to redeem its silver coins.

The silver question brings up some curious things to think about, doesn't it? It's enough to start Col. Bryan up again.

TEN-CENT COTTON.

Farmers of this country are storing their cotton rather than sell at less than 10 cents. Their cotton is worth 10 cents and it is one of the blessings of this prosperous period—more prosperous in nothing than in agruculture—that they don't have to sell at any price if they don't want to.—Charlotte Observer.

Yes, cotton is worth 10 cents. In fact, it is worth more than 10 cents; and if every owner of cotton, whether the producer or not, who can afford to hold it, will do so, he will receive better prices later on. The Star makes no prediction as to the maximum price cotton will reach during the present season; but we believe that it should, and will, command more than 10 cents even should the yield prove the largest in the history of cotton. If the demand holds up to present proportions a place will be found for every bale produced.

PRESIDENT'S INTERFERENCE IN POLITICS.

A few days ago former Governor Odell, of New York, criticised President Roosevelt for interfering in politics in that State and declared that the people always resent such interference.

On Wednesday Representative Herbert Parsons, president of the New York Corporation Committee, replied to part of the criticisms of ex-Gov. Odell regarding the late campaign in the State. He said:

"As to Gov. Odell's criticism of President Roosevelt for his attitude in the campaign, I can only say that in view of the fact that Mr. Hearst and his campaign speakers declared that the views of the President and Mr. Hearst were practically parallel, an authoritive statement of the President's actual position was entirely pertinent. The President chose the only course that was open to him to state his position, as he had a perfect right to do, both as President and as a citizen of the State."

Mr. Parsons is right. The President has the privilege and right as a citizen to take a hand in politics, but to do it shows a lack of good judgment and violates propriety.

—Give Mr. Cleveland his brown corduroys, his double-barreled gun and the open season for rabbits and he'll show you what to do with your ex-Presidents. —New York World.

—New Hampshire, too is getting tired of government by railroads. It will get to be, after a while, so that a railroad cannot do anything but carry freight and passengers.—Philadelphia Press.

—The defeat of some prominent "stadpatters" and the very narrow escape of some others will be apt to shake the confidence of some of the Republican majority of next Congress in the stability of their position.—Philadelphia Record.

—From the numerous complaints about the marking up of delayed trains on the bulletin boards, the railway people are not paying much attention to the orders of the corporation commission. It's queer, but one hears persons 'cusin" the road and the commision almost every day, when their duty lies in reporting the cases to the commission and furnishing the evidence. The commission cannot be at over the state at the same time. Last week a gentleman started with an invalid wife to Asheville. He was told the train was on time—6:30—so he took her to the station. When he reached there it was marked up 8:30; then he took her back home. When he again returned it was marked 9:30 and as a matter of fact the train did not arrive here until 11:30 or after it. Anybody knows the railway company could have hit the mark much better than this. There is ignorance or gross carelessness somewhere.—Greensboro Record.

TWINKLINGS.

—"Talk about a retreating chin," exclaimed Enpeck. "Well?" "You should have heard the one I gave my wife last night."—Louisville Courier Journal.

MUST LOOK YOUNG.

This Accounts For Dyed Locks That Nurses Sometimes Show.

"Yes, she's a good nurse, doctor," said the patient rather reluctantly.

"You don't mean that," was the answer of the physician. "What's the matter with her? Come, tell me."

"Nothing," began the faint contradiction. "She's quiet, tidy and sympathetic, but, doctor, her hair's dyed. I could see it plainly yesterday when she sat between me and the window."

The doctor did not speak for a moment. He did not even look surprised.

"Such a nice nurse, too," went on the patient. "Why should she do such a foolish thing?"

It was then that she learned from the doctor that dyed hair is not nearly so uncommon in the case of trained nurses as might be supposed. Sick people like to have young nurses about them. Even physicians have a weakness for the young nurses. They believe that their interest and enthusiasm are greater.

"The nurses' term of usefulness is short enough as it is," this physician said, "for the work is so exhaustive that they must soon succumb. Some of them are compelled to give up after ten years. Few are ever able to keep up until they have put in twenty years.

"If they feel that gray hairs, coming perhaps a little earlier than they are due, are going to make the term of their best days even briefer they are driven to hiding those traces of time and overwork by the use of hair dye, and the number that do make use of it is very much larger than anybody supposes."—New York Sun.

MAHOGANY.

The Way This Beautiful Wood Was Brought Into Fashion.

Every one knows how effective and handsome mahogany is when used for good furniture, but few of us know how its value was first discovered.

In the latter part of the seventeenth century a London physician had a brother engaged in trade with the West Indies who on one occasion brought home several logs of mahogany as ballast. The doctor was building a house, and his brother suggested that the logs would serve for ceiling beams. Acting on the proposal, the doctor gave orders to the workmen to make use of the mahogany, but their tools were not equal to the task of cutting the hard wood, and the logs were put out of the way in a corner in the garden.

Some time afterward the head carpenter tried to make a box from the wood, but was unsuccessful with ordinary tools. He told the doctor, who was interested in the baffling timber and ordered heavier tools to be made to work it with, says Home Notes. When this was done and a box at last made and polished, it was so handsome that a bureau was made from another of the despised logs, and this was declared by experts to be so superior to other furniture making woods that the craze for mahogany set in, and furniture made from it became highly popular, the then Duchess of Buckingham fostering the craze in the fashionable world.

A Sea Serpent Identified.

Some forty years ago, when out with a boating party for seagull shooting, I espied a monster fish basking on the surface of the water, with its head well up in the air. The creature allowed us to get within thirty yards, when I sent two charges of shot into its head, with the result that it rolled over on its back, and our boat soon came up to it. It proved to be a large angel shark. I thought I would make quite sure it was dead and sent two more charges into its upturned belly. I must have, unfortunately, burst its air bladder, for it began slowly to sink. Had I not killed it at first, and had it reared its head and flapped its wings, we should probably have added one more story to the long list of sea serpent fabrications.—Manchester Courier.

A Narrow Squeak.

"Your front door is unlocked, sir!" shouted the policeman when he found that Mr. Careless Householder had gone to bed without attending to his locks.

"It's all right," replied the burglar from the bedroom window a minute later; "my son will lock it when he comes home. Here's a shilling for you."

"An easily earned bob," chuckled the policeman as he walked away.

"A narrow squeak," said the burglar, with a sheet round his shoulders.

"Very," replied his accomplice, whose hands were tightly clasped over poor Mr. Careless Householder's mouth.—London Express.

Skirt and Shirt.

"Skirt" is etymologically the same word as "shirt," though it has come over another linguistic route and properly means a short garment. In fact, "skirt," "shirt," "short," "shear," "kirtle" and "curt" are in all probability near relations. But "skirt" has got itself specialized to a lower garment, with special reference to the lower edge thereof, the boundary where the garment is cut short, whence the verb "to skirt."

Corrected.

Wife (during the tiff)—I have suffered every calamity that can befall a woman. Husband (calmly)—Oh, no, you haven't, my dear. You have never been a widow. Wife—You evidently don't understand me. I said "calamity."

Men of Destiny.

"De man who takes hisse'f seriously every minute of his life," said Uncle Eben, "allus gits to be one of two things—a hero or a joke."—Washington Star.

THE MEERSCHAUM PIPE.

It Was Invented by Kavol Kowates, a Pesth Shoemaker.

Kavol Kowates, a Pesth shoemaker, invented the meerschaum pipe. He died in 1764. A large piece of meerschaum was brought to Pesth by Count Andrassy in 1723. It had been given to the count in Turkey. He fetched it home because, as a piece of white clay of extraordinarily light specific gravity, it pleased him.

Kavol Kowates was noted in Pesth for his skill in carving, and Count Andrassy took his chunk of light white clay to him and said:

"Make, fellow, something pretty out of this."

The ingenious Kavol, a great smoker, thought that the porousness of the white clay adapted it well for pipes, and accordingly he made two from it, one for himself and one for Count Andrassy.

The pipes were charming, and they smoked superbly. The fame of them spread. In course of time meerschaum mining and meerschaum pipe making became two of the recognized industries of the world.

The original Kavol Kowates pipe, the world's first meerschaum, is still preserved in the Pesth museum.

Three Sentiments.

Prince Bismarck was once asked by Count Enzenberg, formerly Hessian envoy at Paris, to write something in his album. The page on which he had to write contained the autographs of Guizot and Thiers. The former had written: "I have learned in my long life two rules of prudence. The first is to forgive much; the second is never to forget." Under this Thiers had said, "A little forgetting would not detract from the sincerity of the forgiveness." Prince Bismarck added, "As for me, I have learned to forget much and to ask to be forgiven much."

Where He Was Gray.

A young man of eighty-three summers, whose hair is still brown, met the other day a friend much younger, but whose hair is quite white.

"What is the reason," said the latter, "that you do not grow gray?"

"Oh," replied the first, "that is easily explained. I have the gray matter on my brain, inside!" — Syracuse Post-Standard.

Bread on the Waters.

"De sayin' is," said Brother Dickey, "dat what you gives ter de poor you lends ter de Lawd, but you mustn't spend all yo' time figgerin' how much interest will be comin' to you!"—Atlanta Constitution.

"The School For Scandal" was first produced at the Drury Lane theater on April 8, 1777.

The Regret of His Life.

Sir William Grove, the eminent scientist and jurist, never forgave himself for not discovering the spectroscope. "I had often observed," he said, "that there were different lines exhibited in the spectra of different metals ignited in the voltaic arc, and if I had had any reasonable amount of wit I ought to have seen the converse—viz, that by ignition different bodies show in their spectral lines the materials of which they are composed."

Nature's Windows.

Nothing hitherto was ever stranded, cast aside, but all, were it only a withered leaf, works together with all, is borne forward on the bottomless, shoreless flood of action and lives through perpetual metamorphoses. The withered leaf is not dead and lost. There are forces in it and around it, though working in inverse order, else how could it rot? Despise not the rag from which man makes paper or the litter from which the earth makes corn. Rightly viewed, no meanest object is insignificant. All objects are as windows, through which the philosophic eye looks into infinitude itself.—Thomas Carlyle.

Testimonial No. 570.

MRS. ANNIE E. SHEEHAN, Weir City, Kansas.

You must remember that falling hair and dandruff are signs of decay, or a diseased condition of the scalp, and you must not delay treatment. To do so simply means more loss of hair, and a greater impoverished scalp, and finally no hair. The wise thing to do is to correct it in the start. Danderine works wonders in all such cases. It will quickly regenerate the enfeebled tissues, and make your hair grow more beautiful than it ever was. NOW at all druggists, three sizes.

OUR BUSINESS

This Season

Has Been an Agreeable Surprise. to Us.

Considering the short cotton crops in the country, the low prices prevailing in the lumber market and the scarcity of money throughout the country, we were very much afraid that we would have a very large fall off in business this season which we did not feel that we could afford to accept.

We double our esolution, bought heavier in every department, made profits smaller and felt that we would make an effort to outdo any previous year.

The immense stock of goods that we carry, extra values we are offering with the additional help of the best kind, our sales now have run away ahead of last season.

We have hundreds of customers, but we want more.

In our store is arranged a splendid premium department that belongs directly to us.

These premiums are in charge of a young lady who keeps them in perfect order and redeems your stamp book or your punch card with pleasure.

We do not feel as if it is something given away. Simply this; we give you what others give us. We pay cash and get the discount and give it to you. Ask to see the premiums we have to give and we feel sure you will find it to your advantage to buy goods from us.

Compare our prices in any line and you will find them much less than those of our competitors.

In our millinery department we trim all hats we sell free and give and give you the lining and box extra.

Our cloak and fur department has been a wonderful success.

The sales girl in this department carries the blue ribbon of the town.

We think we sell as many cloaks as all the rest of the town put together. There are two reasons why we should do so, first; we carry the stock which makes it worth your while to examine before buying elsewhere. Second: our prices are not matched. If ladies are looking around to buy a cloak and get the prices first from other stores, e sell the cloak, and also the furs. This line is an elegant one. Our stock in furs runs as low as 98c each for fur collars. We are also offering clipped Cony Furs with nine tails in black at $2.25 and in brown at $2.98 which is the natural colors with no dye. The sable fox with two large tails we are showing at $5.50 and the double fox without the heads at $9.75. We have these in collarette shapes, with head and two tails hanging down the back and two whole foxes for the front. We have a full assortment in fur collars and muffs from $4 a set to $24 a set. Also a beautiful line of children's furs with collars and muffs to match, as low as $2.25 a set up to $8 a set.

Our fur department is stocked from the best houses in the United States and none of them are cheap, shoddy furs, but well made and in the latest and prettiest shapes. Examine our stock and it will surprise you to see how cheap they are.

The young ladies in the millinery department would be glad to have you see their line of hats, ribbons and velvets. They are very busy but we can take good care of you if you care to give us a trial. There is not a day passes that we do not receive new goods in this department. New hats direct from the factory, new velvets in all colors. We have a beautiful velvet at 75c a yard, a very good one at 50c a yard and up, a splendid assortment of ribbons at all prices. We are showing a real nice plaid ribbon at 10c, 15c, 19c and 25c a yard; No 100 Dreden ribbon at 10c and we handle a big line of fine ribbons width 200 which we sell for 19c, 25c and 35c a yard. Also a special line of black ribbon.

In our ladies' and children's underwear department you will find almost everything from the tiniest infant's wrapper up to the largest No. 9 vest made. To buy underwear we will ask you to see our line. We control the Mentor line for this city, also the Snug Fit line and we have a full assortment of woolen and cotton union suits and red and white flannel vests and pants.

Ask for stamps with every purchase and spend your money where you can get the best value.

"THE PLAYER MAID."

Return of Miss Florence Davis in Last Season's Success.

Miss Florence Davis in "The Player Maid" will be an attraction of unusual interest and importance Monday matinee and night at the Academy when the gifted young actress will make her appearance in this city. "The Player Maid" is a romantic comedy by Louise Malloy, a well known Baltimore newspaper woman. Miss Davis, who comes from a distinguished southern family, is a young woman of exceedingly attractive personality, and has attained her present position of importance in the theatrical profession through earnest endeavor and hard work, combined with fine artistic temperament and natural histrionic gifts of a most distinctive character. Miss Davis began at the lowest rung of the theatre ladder and studied diligently while she played her first small parts in various companies under the direction of Chas. Frohman and other important managers. It is due to their earnest preparation that she has gained the distinction now attained. Seats on sale tomorrow.

Mrs. Winslow's Soothing Syrup has been used for over 60 years by millions of mothers for their children while teething, with perfect success. THE FRENCH HUSBAND.

Always, as a Rule, Anxious to Do the Agreeable Thing.

The French husband has a faculty that amounts almost to a genius for bestowing the delicate attentions which cost little except the exercise of a modicum of tact and thoughtfulness, but which carry joy to every true woman's heart. He not only thinks to take home to her often (in the absence of the means to make a larger offering) a ten cent bunch of violets, pinks or roses from the flower market or the itinerant flower vender's barrow on his route, but he presents them gallantly with the compliment and the caress the occasion calls for, and this makes them confer a pleasure out of all proportion to their intrinsic worth.

He remembers her birthday or fete day with a potted plant, a bit of game, a box of bonbons, a cake from the pastry cook's or a bottle of good wine. He is marvelously fertile in expedients for making the time pass quickly and agreeably for her. He has a thousand amusing and successful devices for helping her to renew her youth. He projects unique and joyous Sunday and holiday excursions. He improvises dainty little banquets. He is a past master especially in the art of conjuring up amiable mysteries and preparing charming little surprises. And in all these trivial enterprises he vindicates the old French theory that true courtesy consists in taking a certain amount of pains to so order our words and our manners that others "be content with us and with themselves."

The American husband is particularly solicitous to do the proper thing; the French husband to do the agreeable thing.—Independent.

WATER IN TURKEY.

Must Meet Many Conditions to Be a Perfect Beverage.

"Turks are extremely particular," writes a traveler, "in regard to the quality of the water they drink and are willing to be at much trouble and expense to obtain water of the kind they prefer. To be a perfect beverage water must issue from a rock, fall from a height, be of medium temperature, flow rapidly and copiously, taste sweet, spring in high and lonely ground and run from south to north or from east to west. The excellence of any water is accordingly determined by the number of these conditions it fulfills. It is remarkable how much pleasure Turks find in visiting a famous spring in the country, to spend the whole day beside it under the shade of trees, doing little else than drink carafe after carafe of the water as the elixir of life. Resorts of this description abound on the shores and in the valleys of the upper Bosporus under such names as the Water of Life, the Silver Water, the Water Under the Chestnut Tree, the Water Beside the Hazels. The spectacle of the great gatherings there on Fridays, arrayed in bridal colors, seated tier above tier on the terraced platforms built against the green slope of the hill, the women above, the men below, all in the deep shade of the branches meeting overhead, forms a picture beyond a painter's power to reproduce.—Chicago News.

Hot Drinks For Thirst.

It is a mistake to suppose that cold drinks are necessary to relieve thirst. Very cold drinks, as a rule, increase the feverish condition of the mouth and stomach and so create thirst. Experience shows it to be a fact that hot drinks relieve the thirst and cool off the body when it is in an abnormally heated condition better than ice cold drinks. It is far better and safer to avoid the use of drinks below 60 degrees. In fact, a higher temperature is to be preferred, and those who are much troubled with thirst will do well to try the advantages to be derived from hot drinks instead of cold fluids, to which they have been accustomed. Hot drinks also have the advantage of aiding digestion instead of causing debility of the stomach and bowels.

The Harshness of Orators.

American political orators are often charged with being unduly harsh to the other side. The following extract from a speech of the late Earl of Shaftesbury, published in his memoirs, shows that if our stump speakers exhibit harshness they come honestly by it. The noble earl thus described and prophesied: "When Gladstone runs down a steep place, his immense majority, like the pigs in Scripture, but hoping for a better issue, will go with him, roaring in grunts of exultation."—Boston Transcript.

Noah's Advantage.

Mrs. Noah was complaining that her clothes looked as if they had come out of the ark.

"On the contrary," returned her spouse, "they have just come across the water."

Herewith he congratulated himself on the cheapness of imported gowns.—New York Sun.

As the Boy Saw It.

An Englishman tells the story of a boy who saw an exceedingly bowlegged man standing in front of a hot fire. Finally he could restrain himself no longer and said, "Hey, mister, you'd better get away from there; you'se warpin'."

Politeness.

The greatest thing in the world is politeness. And no schooling is necessary to be agreeable. Simply have a little consideration for others and be quiet and modest.—Atchison Globe.

—Fayettesville Observer, Nov. 14: Mr. Ransom Burns died last evening at 8 o'clock, aged 74 years, after a brief illness, though he had been in somewhat declining health for some time. He was a native of Randolph County and came to this city in the early seventies, first dealing in tobacco and afterwards carrying on a popular restaurant on Person street for years. He subsequently bought the valuable property on Gillespie street, where his stables are situated, and at the time of his death was proprietor of the large clothing house on Hay street.

—Wadesboro Messenger and Intelligencer: Samuel Fort departed this life about 3 a. m., October 24, 1906, with shocking sadness. He sat at his fire two hours before the mortal termination of his life. Born to a low estate, yet, Sam, in his career, won the hearts of divers men of larger fortunes and more attractions. He was the politest man of his social position who has lived and anchored in the stream of my life. God bless the boy. May angels guard him to rest. "Now cracks a noble heart." In the hour of night when men are not courageous, he blundered upon death. Sam did not fear. God petted him and the well-beloved man, despite darkness and startling surroundings, went away, calling his friends goodbye and saluting his Redeemer. I commend him to God, a precious memory without grudge. He labored in the vineyard, strove to please the Master, and conquered Heaven. Aged 58 years. R. T. Bennett.

A stylish shoe that's absolutely comfortable

No. 66, Red Cross Glazed Kid Lace, $3.50

In the ordinary shoe, at every step, the sole of the shoe rubs the ball of the foot. Thousands of rubs a day!

This continual rubbing draws the feet, makes them burn, throb, ache. The constant strain tortures the nerves of the feet and they in turn tire out the whole system.

The Red Cross Shoe saves a woman's strength, because it removes this strain. The sole of the Red Cross Shoe is *flexible.*

AFTER OIL TRUST WITH INJUNCTION

Government Instituted Proceeding of Great Proportion at St. Louis Yesterday.

IS AGAINST 70 COMPANIES

They are Subsidiaries of Standard Oil Company—To Be Restrained From Combining in Restraint of Trade —Ohio Suits.

Washington, Nov., 15.—Attorney General Moody today acting through the resident United States District Attorney, instituted proceedings against the Standard Oil Company of New Jersey under the Sherman anti-trust act, by filing in the United States Circuit Court at St. Louis a petition in equity against it and its seventy constituent corporations and partnerships and sev en individual defendants, asking that the combination be declared unlawful and in the future enjoined from entering into any contract or combination in restraint of trade, etc.

St. Louis Case.

St. Louis Nov., 15.—The petition instituting suit against the Standard Oil Company of New Jersey, John D. Rockefeller and others in the name of the government by direction of the Attorney General was filed in the United States Circuit Court here this morning. Frank B. Kellogg, of St. Paul, Minn., special counsel for the government, formally placed the petition with the court.

The defendants have one month in which to enter their appearance and an additional month in which to file their answer. They also have the option of filing a demurrer to the bill.

Following the filing of the government's petition an order was applied for before Judges Sanborn and Adams of the United States Circuit Court of Appeals to bring non-resident defendants into the jurisdiction of the district court at St. Louis to serve them with supoenas.

It is considered probable that a special commissioner will be appointed to take the evidence n the case and that he will certify the record to the United States Circuit Court of Appeals as was done in the Northern Securities case.

Rockefeller For Trial.

Cleveland, O., Nov. 15.—Malcolm Vilas treasurer, J. M. Robertson secretary and Harry P. McIntosh, director, the three officers of the Sandard Oil Company indicted on Wednesday with John D. Rockefeller by a Hancock county grand jury, for alleged violations of the Valentine Anti-trust law of Ohio, will next Monday or Tuesday personally appear to plead and give bail in the court at Findlay, O., according to a statement made tonight by S. H. Tolles, of Kline, Tolles & Goff, Standard Oil Company attorneys. Mr. Tolles to-day had a long talk over the telephone with prosecutor David of Hancock county. Mr. Tolle asked for permission to have Vilas, Robertson and McIntosh appear at Findlay in answer to the warrants. Prosecutor David said he would insist upon personal appearance and that the deputy in whose hands the war rants had been placed, had strict instructions to effect service.

Vilas, Robertson and McIntosh are in the East, said Mr. Tolles to-night. "I will get into immediate communication with them and arrange to have them appear in court at Findlay on Monday or Tuesday by the latest."

Texas Has a Suit.

St. Louis, Nov. 15.—Assistant Attorney General Jewell P. Lightfoot, of Texas, to-day began taking depositions in the suit brought by the State of Texas to oust the Waters-Pierce Oil Company from doing business in that State. The depositions were taken before Notary Robert Funkhouser and in accordance with the laws governing the State of Texas were conducted in secret session.

Ohio After Rockefeller.

Findlay, O., Nov. 15.—Criminal prosecution of the highest officials of the Standard Oil Company will be the next move of Prosecutor David, according to a statement made by him this afternoon. In this prosecution it is stated that Attorney General Wade H. Ellis will assist.

Mr. David says he believes he has sufficient evidence to warrant him in bringing all of the officers and directors of the controlling corporation, the Standard Oil Company, of New Jersey, before the court. John D. Archbold, Henry H. Rogers and William A. Rockefeller, are among those mentioned by the prosecutor in connection with his latest move. George W. Phelps, law partner of Prosecutor David, who is credited with being intimately connected with the prosecution in a semi-official way, went to Columbus to-day where he held a conference with Attorney General Ellis on the subject. Prosecutor David has ordered the grand jury held in service till the end of the term with a view to bringing this new action. He said to-day that if he should be unable to get his evidence for this case in proper shape he will allow the matter to go over to the next grand jury which will convene in January. He also intimated that there may then be further probing into the charges of alleged attempted bribery of a member of the petit jury in the recent Standard Oil trial here on which Juror Myers made a statement to the court yesterday.

NEW PLAN FOR CURRENCY.

Proposed Bill To Enable Banks to Issue Credit Bills.

(By Wire to The Morning Star.)

Washington, Nov. 15.—The plan of currency reform agreed upon by the committees of the American Bankers' Association and the New York Chamber of Commerce upon which they have been at work for four days, was made public to-day. The conclusions reached were unanimous and will be submitted in the form of a report to the members of the American Bankers' Association. A committee was appointed consisting of Mr. Hepburn, James B. Forgan, of Chicago and John L. Hamilton, of Hoopston, Ill., to whom was intrusted the drafting of a bill for presentation to Congress, which will embody the sentiment expressed in the statement made public by the committee of bankers to-day.

The plan agreed upon by the two committees contemplates the issue under government supervision of credit bank notes by national banks equal to 40 per cent. of their bond secured circulation, subject to a tax of two and one-half percent, per annum; an automatic increase of credit notes under certain conditions; a further issue of credit notes equal to 12 1-2 percent. of a bank's capital at a tax of five per cent per annum; the establishment of a guarantee fund for the redemption of credit notes of failed banks; provision for active daily redemption of credit notes; repealing exing law limiting the retirement of bonds secured notes to $3,00,000 per month; and the deposit of all public moneys above reasonable working balances in national banks without collateral security on which the banks are to pay two per cent.

Under the bill proposed any national bank having been actively doing business for one year and having a surplus fund equal to 20 per cent. of its capital shall have authority to issue credit notes.

The statement is made in the report agreed upon that there is unanimity of opinion that changes in the existing bank note system are imperatively required and that the present volume of bank notes is wholly unresponsive to the demands of commerce.

James R. Branch, secretary of the American Bankers Association, and Secretary of its currency committees, who has attended all the meetings of the banks, made an explanatory statement after the gathering adjourned giving the opinion in popular language of the members of the bankers committee of the operations of the proposed bill. This statement in part sets out the following:

"The provision limitng the issue of credit notes to forty per cent of the bond secured circulation and not exceeding twenty-five per cent of the capital stock is for the purpose of preventing any tendency by banks to sell government bonds now held to secure circulation, in order to avail themselves of the new circulation. Such action is taken because it is desired that the measure proposed if enacted shall not tend to depress the market for government bonds. No part of the assets of banks are to be specially pledged to secure the credit notes but they are to be protected by the same lgal reserve now required against deposits—in reserve cities twenty-five per cent., and in country banks, fifteen per cent. The members of the committee think that the claim of the credit notes of a failed bank upon its assets should not be given a lien to that of the depositors, but that the guaranty fund, with the addition of a pro rata claim upon the assets with the depositors would afford adequate protection. The members believe that the tax on the note issue will create a guaranty fund many times larger than necessary to meet the notes of failed banks.

Final adjournment of the committee was taken today.

MAYOR UNDER GRAVE CHARGE.

Grand Jury at San Francisco Returns Five Indictments.

(By Wire to The Morning Star.)

San Francisco., Nov. 15.—The grand jury to-day returned five indictments against Mayor Eugene Schmitz and Abraham Reuf on charges of extortion. On one charge the bail was fixed at $10,000 and bond at $5,000.

The first alleged crime was in connection with the Poodle Dog restaurant and the indictment recites that Reuf and Schmitz demanded money from the proprietor, Tony Banco. As this demand was made, it is said, on two occasions, two indictments were returned. Extortion is said to have been practiced on Edouard Marchand, proprietor of Marchand's restaurant, and is the basis of two more indictments. A demand made upon Joseph Malfanti, another restaurant man is alleged offense on which the fifth indictment was found.

THE PERSECUTED JEW.

He Is, It Is Claimed, the Most Spiritual Man Alive.

"The Jew is said to have what is known as the commercial instinct," said Oscar S. Straus. "Hume tells us that under Richard I. 500 Jews sought safety in the castle of York, where, not being strong enough for defense, they killed their wives and children, threw the bodies over the walls into the mob below and, setting fire to the castle, were themselves burned alive. The gentry owing money to the Jews hastened to the cathedral, where their bonds or promissory notes were kept, and made a bonfire before the altar. 'The compiler of the Annals of Waverley, in relating the event,' Hume says, 'blesses the Almighty for thus delivering over this impious race to destruction.' History blazes with such stories of self sacrifice and barbarity. The commercial instinct in this particular case appears to have been on the other side.

"Instead of the Jew being a natural barterer, he is the most spiritual man alive. He has been pounded through the ages, robbed and massacred, but he yields neither his traditions nor his ideals. Had he been materialistic he would have sold out long ago and bought peace. If he would join the Greek church he would be safe in Russia. Rather than do that he will walk into the jaws of hell. Therefore I say that he is spiritualistic or idealistic rather than practical or material. Were I to choose a family that would live I would have it meet hardships and persecutions. Were I to choose one to die I would give it pleasure and luxury. The Jew, denied his civil rights, despoiled of his property, scourged and murdered, has only been made tougher and longer lived. His enemies have given him strength and trained him most admirably for the battle of life, no matter in what part of the world fortune may lead him."—New York World.

TO KEEP YOUNG.

Be Active, Seek Variety and Don't Be Afraid to Laugh.

Never retire from active life if you can possibly avoid it; keep "in the swim;" keep the mind active; never refer to your advancing years or say "at my age."

To preserve youth you must have a variety of experience. The country woman at forty, although breathing a purer air and living on a more healthful diet than the city woman, often looks fifty, while the latter at the same age does not look more than thirty. But her mind is more active than that of her country sister; that is the secret of her more youthful appearance.

Nothing else ages one more rapidly than monotony—a dead level existence without change of scene or experience. The mind must be kept fresh or it will age, and the body cannot be younger than the mind.

Few minds are strong enough to overcome the aging influence of the monotonous life which rules in the average country home. City people have infinitely greater variety of life. They enjoy themselves a great deal more than country people. They work hard when at work, but when they are through they drop everything and have a good time. There is no doubt that the theater, in spite of its many evils, has done a great deal toward erasing the marks of age. People who laugh much retain their youth longer.—Success.

Good Substitute.

"George," she said, after she had accepted him, "tell me, am I your first and only love?"

"Why—er—no, dear," replied the drug clerk dreamily, "but you are something just as good."—Exchange.

Pessimistic.

"I never knew such a pessimist as that fellow Jenkins."

"Yes, I actually believe his idea of heaven is a place that is paved with gold bricks."—Puck.

Beauty is a short lived tyranny.—Socrates.

SHAKESPEARE'S NAME.

The Great Poet Himself Spelled It In Different Ways.

Our great poet Shakespeare spelled his surname in two ways—viz, "Shakspere" and "Shakspeare" in writing the three signatures to his will, now at Somerset House. Besides these three there are two other authentic signatures, of which the first, in the conveyance of his Blackfriars property, is written "Shakspere," and the second, in the mortgage deed relating to the same property, has been interpreted both as "Shakspere" and "Shakspeare." "Shakspere" is the spelling of the alleged autograph in the British museum copy of Florio's "Montaigne," but the authenticity of the signature is considered doubtful. The name of the poet's father occurs sixty-six times in the council books of Stratford and is spelled in sixteen ways, the commonest form being "Shaxpere." Almost all references to the poet in the seventeenth century give the form "Shakespeare," which is used also on the grant of arms in 1596, in the license to the players of 1603 and in the text of all the legal documents relating to the poet's property. That the poet sanctioned this spelling is clear from its adoption in the "Venus and Adonis" of 1593 and the "Lucrece" of 1594, which were produced under his supervision.—London Standard.

THE SPANISH WOMAN.

She Is Beautiful, Proud, Simple and Radiantly Feminine.

What women are more adorable, so proud, so simple, so radiantly feminine? As a type, the Spanish woman of the south is unique. She is small and slender, exquisitely proportioned, with tiny but beautifully shaped hands and feet. Her head, poised proudly on a torso of classical symmetry, is small, and her hair is black and crisp, of the bluis tint peculiar to the raven. Her face is oval, such as Ruskin admired, finely chiseled, frank and childish; her lips full, red and pouting; her nose slightly aquline with nervous, quivering nostrils. Her eyes, almond shaped, dark, lustrous, pensive and passionate, now flash open like globes of fire, now dreamily close as if in sadness. In her white lace shawl and the flowers of Spain in her hair she is quite irresistible, yet no prouder creature exists, nor less coquettish a nature. Her love consumes her, and she would no more smoke a cigarette than she would play hockey or golf. She is simple as a bird, wayward and captious as a child; sincere, for she does not know what it is to be insincere. When she loves she will die for you, but when she hates she will slay you with a glance as keen as any dagger.—New York Mail.

Discourtesy.

If we inquire closely into the complaints of modern deterioration of manners in the lower classes we should find that the real sting does not lie in actual rudeness, but in the shock of receiving courtesy when respect was demanded. The complainants feel in their modest degree very much like Henry LIX. of Hochneunschloesser-Fichtenwald, when the American student on being presented said genially, "Pleased to make your acquaintance."—Miss M. Loane in Contemporary Review.

Her Supposition.

"I'm glad to say," remarked Mrs. Strongminde in an insinuating tone, "that my husband is not a sporty man."

"Oh," replied Mrs. Kaflyppe, looking very sweet and innocent, "I'm surprised to hear you say that. I have always supposed that he must have married you on a bet."—Chicago Record.

Effect of Familiarity.

"Breeves is pretty familiar with the law, I am told."

"Wonderfully so. I guess that is why he manages to get himself fined for contempt every session."

Same People.

"Halloa, Bilkins! Who are you working for now?"

"Same people—a wife and five children."

SPIRITS TURPENTINE

—The Southern Live Stock Insurance Company has been organized at High Point and $50,000 capital stock paid in. Risks will be written on deaths among stock only.

—Raleigh News and Observer, Nov. 15: Col. George L. Peterson, of Clinton, was a visitor to Raleigh yesterday. Col. Peterson says that the township in Sampson county in which Marion Butler votes, went Democratic by 33 mapority in the recent election. Home folks are wise.

—Whiteville News-Reporter: Columbus County Superior Court, convenes on next Monday week, November 26, His Honor Judge W. B. Council presiding. This will be Mr. Lyon's last appearance in Columbus county as solicitor. After January 1 it will be His Honor Judge Lyon.

—Ayden, Pitt county, is stirred up over several burglaries Saturday night. The residences of J. A. Davis and R. C. Cannon were entered and money, watches and other valuables were stolen. Attempts were made to get into the desidences of C. A. Fair, Dr. Dixon, E. S. Edwards and others.

—Elizabeth City, Nov. 14.—Mr. Isaac E. Emerson, the well known North Carolinian who has become a millionaire in Baltimore, by Bromo-Selzer, passed through this city on his handsome yacht "Margaret" on their way to the lower sounds where the party will spend several weeks in hunting, gunning and fishing.

—Sampson Democrat: Material is now being placed on the spot and work begun on the handsome two story brick building on the corner of Main and Sampson streets, in which is to be Clinton's new postoffice, fixed up in convenient, modern and attractive style. Contractor D. E. Clifton will put upt the building and Major G. E. Butler owns the property.

—At Concord John Folk, a white boy, not more than 16 years of age, was sent to thec hain gang by Mayor Caldwell to serve a term of 45 days. The boy was hilariously drunk and raised a disturbance at his home in the suburbs of the city. He has a reputation of being a very bad boy. The mayor did not care to place the boy on the chain gang, but there was no alternative.

Rocky Mount, Nov. 14: Mr. Sam Allen, had the misfortune yesterday to lose his gin house and about 25 or 30 bales of cotton by fire. His cotton press was out of fix and he heated an iron pin to drive in the wood to make it burn a larger hole and thus he set fire to it, which caused the conflagration. Several farmers had cotton there awaiting to be ginned, which was consumed by the fire. There was no insurance on the machinery or cotton and so it was a total loss.

—Goldsboro, Nov. 14.—Mr. J. P. Lewis, formerly car inspector on the Atlantic and North Carolina railroad in this city, who lost a leg and had one of his arms mangled while under a car several months ago, met with another painful accident Monday morning while on his way to assist his son in light work in the cars, when he stumbled and fell to the ground, his head striking a small oak tree, cutting a severe gash and in the fall his injured arm was broken again.

—Mount Olive Tribune, Nov. 15: Mr. C. W. Pennington, who lives in the Dobbersville district several miles from Mount Olive, lost everything he possessed by fire Friday night, November 2. His household and kitchen furniture, clothing, etc., about 100 pounds of meat and a bale and a half of cotton together with the house in which helived was consumed. The house belonged to Mr. John Grantham, of Goldsboro, and was insured for $200. Mr. Pennington had no insurance whatever and his loss is a great blow to him.

—Kinston, N. C., Nov. 14.—Mr. Amos Harvey died at his home on Gordan street this morning at 3:30 o'clock of feebleness resulting from old age. He was in his 90th year and for the past few weeks has been in a state of partial coma and death was epected at any moment. He passed quietly away while sleeping and experienced no pain. The funeral takes place Thursday afternoon at 2 o'clock with the honors of the Masonic fraternity of which order he had been a member since he was 21 years of age.

—Salisbury, Nov. 14.—Cicero G. Knott, of Winston-Salem, met instant death by being run over by a switch engine in the Southern railroad yards here last night. He attempted to cross the track in front of a locomotive which could not be stopped until it had passed over his body, cutting his body in twain and frightfully mangling his limbs. Knott was drinking and had just been aroused from a stupor by the side of the track when the accident occurred. He was about 45 years of age and leaves a wife and one son.

The Wilson Heater will produce more heat from a unit of fuel, and keep your home at a more even temperature, with little or no trouble, and fewer ashes than any other heater made.

There is no Noxious Gas, Offensive Smoke or Cold Floor Draft where the Wilson Coal Heater is used.

Holds fire 36 hours or longer. The combustation is perfect—the heat does not go up the chimney. Burns every particle of the coal; does not make clinkers and leaves very little ash. Other stoves look much like the Wilson, but—that's all. None of them work like the Wilson and none are so good.

IT'S IN THE DRAFT.

The secret of the fuel-saving qualities of this Buck's hot blast heater lies in the draft construction. It is so made as to allow large quantities of heated air to pass over the upper surface of the burning coal, thus supplying oxygen to the rising gasses, which are then converted into heating power.

Simple, isn't it? And yet it's new principle in stove building—not to be found elsewhere.

This stove will reduce your coal bill nearly one-third.

Let us tell your of its many advantages.

THE COTTON MARKET.

NEW YORK, Nov., 15.—The cotton market was very active and strong again today with the close steady at a net advance of 9 to 22 points. Sales for the day were estimated at 400,000 bales. The opening was steady at a decline of 7 to 9 points owing to somewhat disappointing cables and prices sold off during the early session to a net decline of about 13 to 14 points, under heavy realizing and local bear pressure. There was continued support from some of the big spot people at the decline and covering of nearby shorts, however, and the market rallied as soon as the line of the scattering longs had been reduced. Shorts seemed to be very nervous owing to the reports of stronger southern spot merkets, and rumors that there was a big short interest in nearby positions in the local market and while the demand was not so extremely active there was little cotton offerings until December reached 10.20 and January 10.19, or about 20 to 22 points net higher. At this level the merket eased off under realizing and a renewal of selling for a turn but lost only a few points of the advance with the close relatively firm in the nearby positions, particularly November which showed the extreme advance. The weather being unsettled in the eastern belt helped the market on the advance but the main influence appeared to be the reports of very firm southern holders and the talk of a squeeze in the near positions.

Receipts at the ports today 61,289 bales against 54,996 last week and 49,159 last year. For the week 410,000 bales against 422,645 last week and 391,919 last year. Today's receipts at New Orleans 17,956 bales against 14,505 last year and at Houston 9,997 bales against 6,294 last year.

Spot cotton closed steady 20 points advance; middling uplands 10.90; middling gulf 11.15; sales 1,300 bales.

Made Happy For Life.

Great happiness came into the home of S. C. Blair, school superintendent, at St. Alban's, W. Va., when his little daughter was restored from the dreadful complaint he names. He says: "My little daughter had St. Vitus' Dance, which yielded to no treatment but grew steadily worse until as a last resort we tried Electric Bitters; and I rejoice to say three bottles effected a complete cure." Quick, sure cure for nervous complaints, general debility, female weaknesses, impoverished blood and malaria. Guaranteed by R. R. Bellamy's drug store. Price 50c.

A Year of Blood.

The year 1903 will long be remembered in the home of F. N. Tacket, of Alliance, Ky., as a year of blood; which flowed so copiously from Mr. Tacket's lungs that death seemed very near. He writes: "Severe bleeding from the lungs and a frightful cough had brought me at death's door, when I began taking Dr. King's New Discovery for Consumption, with the astounding result that after taking four bottles I was completely restored and as time has proven permanently cured." Guaranteed for Sore Lungs, Coughs and Colds, at R. R. Bellamy's drug store. Price 50c and $1.00. Trial bottle free.

ROCK CLIFF LITHIA SPRINGS WATER.

READ WHAT ONE OF THE MO ST NOTED CITIZENS OF SOUTH CAROLINA HAS TO SAY OF THE FAMOUS ROCK CLIFF SPRINGS WATER.

Spartanburg, S. C., July 24.

To Rock Cliff Lithia Springs Co.:

Gentlemen:—This will certify that I was severely afflicted with a serious case of erysipelas, that confined me to my bed for about six months or more, with daily attendance of my physician, and which eventually settled in my left leg and became so severe that a consultation of three physicians was held and the decision reached that the lower part of my leg would have to be amputated to prevent the disease extending to the upper part of my leg and body. I declined the operation and was advised to try Rock Cliff Lithia Springs Water. I engaged board near the spring and was advised to bathe my leg in the water, at the same time drinking freely.

This application soon soothed the pain, and for the first time in months previous I slept for about two hours. After a week's treatment, without any medicine or physician's help, I walked to the spring on crutches. I continued the treatment daily, and within two weeks was able to walk to the spring without crutches and in four weeks was able to walk home, a distance of 1½ miles, and resume my official business.

I was permanently cured by the use of the water, and take great pleasure in giving you this testimonial to the efficiency of the Rock Cliff Springs Water in the treatment of erysipelas.

PANAMA GREETS MR. ROOSEVELT

American President Landed Yesferday Morning and Received Enthusiastic Welcome.

TRAIN RIDE ACROSS ISTHMUS

President Amador Delivered Speech of Welcome at Capital of Bantam Republic—Reply of Mr. Roosevelt Greatly Pleased

(By Cable to The Morning Star.)

Colon, Nov., 15.—President Roosevelt left the flagship Louisiana at 7:30 o'clock this morning and landed shortly afterwards. He was met by Chief Canal Commissioner Shonts, Chief Engineer Stevens, General Manager Bierd, of the Panama Railroad and other high officials. Some time later the President and Senora Amador and the Bishop of Panama reached the spot and greeted Mr. Roosevelt. The entire party then boarded a special train decorated with flags and left Colon at 8:30 A. M. steaming slowly in the direction of Panama in order to enable the Presidential party to have a good look at all the points of interest along the route.

The main street of Colon and the shipping in port were decorated with flags in honor of President Roosevelt's visit but there was no excitement anywhere. A heavy rain fell this morning.

The first stop of the trip to Panama was made at Gatun where the school children were paraded, speeahes of welcome were delivered, and patriotic songs were sung. The ceremony was repeated at Bothic and all the stations and at Matachin. President Roosevelt thanking all the welcoming delegations. Mr. Roosevelt was the picture of health.

Warm Reception at Capital.

Panama, Nov., 15.—The train which brought the presidential party from Colon arrived in front of the Tivoli Hotel at Aconon at 10:30 A. M. There President Amador and his party alighted and President Roosevelt and his party were conducted to LaBoca, at the Pacific entrance of the canal, where the steamer Bolivar was in waiting to take the President on a cruise about Panama bay. At 11 o'clock the Bolivar left her pier, passing around the Flamenco Naos and Perico Islands, afterwards returning to LaBoca. All the steamers, dredges and tug boats in the bay were decorated with flags and when President Roosevelt's steamer passed they saluted, blowing their whistles, while the crews of seven American steamers cheered the President frantically.

The President seemed determined to obtain all the information he possibly could. He asked questions of all the canal employes. During his trip from Colon he met a number of work trains full of earth and rock from the Culebra cut and saw several steam shovels working.

The President came this afternoon to Panama City. From the railroad station he was driven up Central avenue to the Cathedral Plaza. The streets were filled with people and the balconies overlooking the line of march were crowded to their capacity. The people constantly cheered the President as he passed.

At 4 o'clock all the prominent officials of the Panama Government and the Canal Commission and delegations of citizens gathered together on the platform erected in front of the Cathedral and President Amador delivered his address of welcome. President Roosevelt's reply was interrupted time and again by the admiring crowd, who cheered almost every word. At the conclusion of the addresses, the school children of the city marched by the platform and assembled in the park opposite where they sang the national anthem.

President Amador expressed his appreciation of President Roosevelt's visit which he described as an additional cause for the love and respect of the Panaman people. He called President Roosevelt the commander-in chief of the Panama-American forces allied to perform the greatest engineering feat in the world, and said that in the hearts of his people there dwelt the indelible memony that in President Roosevelt they had found, in the past a generous defender. In conclusion the President of Panama extendel the welcome of the republic to the President of the United States, assuring Mr. Roosevelt that he could consider himself in the midst of his best friends and admirers.

In reply President Roosevelt said that the present was the first time in the history of the United States that an American President had placed his foot upon the territory over which the flag of the country did not fly. He said he was glad this foreign territory was the Panaman Republic and retired to his affection for the young country. He said the work on the canal was being performed worthily. He reiterated Secretary Root's words regarding Panama, saying that his only desire was to see the Republic increase in wealth and prosperity until it became a republic whose history was reflected upon the entire world as a land of liberty and order. He voiced a warning against revolutions and ended by saying he was immensely impressed by the tremendous undertaking of the canal and the beauty and fertility of Panama for which he prophesied a great future.

From the Cathedral Plaza President Roosevelt returned to the Tivoli Hotel, and escorted as he had come, by the government officials and prominent citizens, preceeded by 200 young members of the aristocracy of Panama on horseback.

The welcome given President Roosevelt upon landing in Panaman teritory today proved conclusively that the people of this republic are his firm and sincere admirers.

AN AMBASSADOR ON HIS DIGNITY

Brazil's Diplomatic Representative Refused to Answer Immigration Officials.

REPORTED TO WASHINGTON

Secretary Root Ordered That Distinguished Gentleman Be Accorded Courtesies of Our Country and May Offer Apology to Brazil.

(By Wire to The Morning Star.)

New York, Nov. 15.—Whether or not the Ambassador of a friendly nation on arrivng at an American port to to take up his duties in Washington must be compelled to inform the immigration inspectors whether he has ever been in prison, an alms house or an insane asylum or supported by charity or whether he is a polygamist or an anarchist, may be referred to the State Department at Washington as a result of the refusal to-day of Joaquin Nabuco, Brazilian Ambassador, to answer these questions when he arrived here to-day from Liverpool.

The immigration law requires that aliens arriving at this port shall answer those and other questions. The purser of the Baltic reported to the immigration inspectors that his manifest was incomplete owing to the Ambassador's refusal. Immigration Inspector H. V. Marshall then endeavored to secure answers to questions through Mr. Chermant, the secretary of the Brazilian embassy, who accompanied Mr. Nabuco. Mr. Nabuco again refused. He was then told that the German and British Ambassadors had given the desired information when they arrived.

Concerning the incident Mr. Nabuco said: "I answered every question I believed would add to the necessary statistical governmental information, but when it comes to asking questions regarding my beliefs and opinions, it is different. I am not a visitor in the country in an implied sense of the word. I am here as a representative of another power and as such I am to a certain extent the guest of this nation. For this reason, alone I refused to answer certain questions. There is no friction over the affair and I would like nothing be said regarding it."

May Apologize to Brazil.

Washington, Nov. 15.—Upon being unofficially informed of the circumstances attending the landing of the Brazilian Ambassador, Senor Nabuco, in New York harbor, about by his refusal to answer certain questions. Secretary Root promptly communicated with the Department of Commerce nad Labor and requested that the necessary instructions be telegraphed to New York to immediately extend the courtesies of the port to the Ambassador and his secretary. It is probable that an apology also will be offered to the Ambassador and a severe admonition given to the immigration officials responsible for the indiginty.

STEEL PASSENGER COACHES.

Pennsylvania Railroad Will Have No More Wooden Cars.

(By Wire to The Morning Star.)

Philadelphia, Nov., 15.—The Pennsylvania Railroad Company has decided to place an order for 100 all steel, non-inflammable passenger cars. It is the company's intention to build no more wooden cars and the decision to build steel cars was hastened by the building of the New York tunnel, through which only absolutely fireproof cars will be run.

The Pullman Company, at the instance of the Pennsylvania Railroad Company is now working on an experimental all steel, non-inflammable sleeping car. bout 400 of these cars it is stated must be ready for service by the time the New York terminal is completed.

SECOND VERDICT FOR REBATING

New York and Hudson River Railroad Convicted in New York.

IT FAVORED SUGAR TRUST

Court Found That Freight Rebate of $26,000 Was Allowed—Sugar Trust Will be Tried For Accepting Rebate.

(By Wire to The Morning Star.)

New York, Nov. 15.—The New York Central & Hudson River Railroad Company was convicted in the United States Circuit Court to-day of granting a rebate of $26,000 to the American Sugar Refining Company, and the trial of the latter company for having accepted that sum as rebates will begin to-morrow in the same court. The jury was out about two hours and immediately upon the announcement of its verdict of "guilty" counsel for the defendant company moved to set aside the verdict, which Judge Holt promptly denied.

When court met to-day Joseph H. Choate, counsel for the defendant company, moved to dismiss the indictment and upon its denial by Judge Holt, entered upon a long argument for the defense. "We never know" said Mr. Choate, "either as lawyers or judges, what a law really means until the Supreme Court of the United States has spoken."

He maintained that contracts by the defendant company under the old Inter-State Commerce law, granting lower rates than the regular schedule and carried out subsequent to the passage of the Elkins act, did not constitute a violation of that act; that the practice of rebating or granting lower rates, was not looked upon as a criminal offense. At that time, he argued, there were many powerful corporations more skilful in evading the existing Inster-State law than the carriers themselves. Mr. Choate maintained that there is no authority for continuing "a criminal law as retro-active. The law is void as an ex post facto enactment."

In denying the motion Judge Holt said he thought the Elkins act sufficiently binding upon the accused and that there was sufficient evidence to send the case to the jury. The words "shall be" in the law, Judge Holt held, did not relate to future transportation alone, but to discriminations that might be or had been attempted to bring about shipments at less than the tariff or published schedule.

United States District Attorney Stimson made the closing argument for the government, and in his charge to the jury, Judge Holt reviewed the evidence as adduced as well as the history of the passage of the Elkins act.

Judge Holt fixed November 20 as the date for argument on a motion to arrest judgment.

GREAT FLOODS OUT WEST.

Bridge Swept Away and Railroads Are Tied Up.

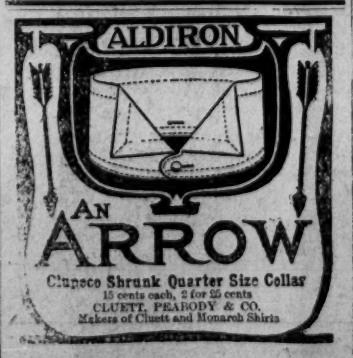
Portland, Ore., Nov., 15.—Portland tonight is cut off by floods, from Seattle, Tacoma, Belingham, Spokane, and every point north and east of Kelso, Washington. The rain storm that swept over the northwest Pacific coast last night has created a condition under which railroads are at a standstill or greatly interrupted. Flooded rives have washed out bridges and wagon roads are impassable.

The only trains that entered Portland today were from the south. Trains from the north are stalled in and about Seattle and Tacoma and trains from the east, over the Oregon railroad and navigation tracks, are stalled by a landslide at Bonneville. This landslide will not be cleared for two days and pasengers will be brought to Portland by boat.

A dispatch from Kelso, Wash., says a raging torrent is rushing through the low lands in that vicinity, carrying thousands of dollars worth of property in a mad rush to the sea. The Cowlitz river was twenty feet above low water mark today and the big 800 foot draw bridge that spans the streams between Kelso and Catlin, broke loose early today with a crash that was heard for blocks, and joined the huge mass of debris floating down the river.

The Williamette river in Oregon at points above Portland rose rapidly yesterday and today. It is expected that the stream will cover the lower docks along the Portland water front before the flood subsides.

Today the weather is moderating.



CAPITAL EDUCATIONAL MOVE.

Dr. Alderman Wants to Systematize Preparation for College.

By Wire to The Morning Star.

Charlottesville, Va., Nov., 15.—An important educational conference has been called by President Alderman to meet at the University of Virginia on November 22 to 24. Those invited to participate are the presidents of seven State universities, the presidents of Virginia colleges, the State superintendents of education in the States of North Carolina, South Carolina, Tennessee, Alabama, Georgia and Virginia, and the profsesors of secondary education in the same States and certain experts in agricultural education.

The conference will be the first attempt on the part of those engaged in higher education to reach the secondary schools and aid in relating them properly to the schools below and the schools above.

A dispatch to The Associated Press at Halifax, N. S., from Chateau Bay, Labrador, announces the arrival there at 6 o'clock last evening of the Arctic steamer Roosevelt with Commander Peary aboard, which had been delayed by heavy weather further up the coast. The steamer is fog bound at Chateau Bay, and is expected to sail tomorrow, Friday morning for Sydney.
